

## SR522 Improvement Project

### **CONSTRUCTION UPDATE – August 24, 2009**

#### **Night Work: SR 522 Paving – 65th Avenue NE to 73rd Avenue NE**

Tonight, August 24, crews are scheduled to begin the pavement overlay on SR 522 between 65th Avenue NE and 73rd Avenue NE. Crews will first shift traffic to the north in order to pave the eastbound lanes of SR 522. After eastbound lanes are paved, traffic will be shifted to the south to complete paving of the westbound lanes. Portions of 68th Avenue NE and 73rd Avenue NE will also be paved at a later time. This paving project should take a couple of weeks to complete.

Following paving there will also be several evenings of work to complete utility adjustments and roadway striping. This work is weather dependent and cannot be completed if the area is too wet. If there is a weather delay, work will commence as soon as weather conditions allow.

While methods to reduce construction noise will be in place, noise from the construction site should be expected.

What to expect during construction:

- Temporary lane closures and traffic shifts. One lane of SR 522 will be open in each direction during night work.
- Additional construction equipment and noise
- Vibration and back-up alarms associated with construction vehicles
- Pavement grinding

Night work hours are Monday through Thursday, 7 p.m. to 5 a.m.

#### **Work on 68th Avenue NE Continues**

South of SR 522, crews are grading the roadway and preparing to install curbs and new sidewalks on the east side of 68th Avenue NE. North of SR 522, crews are working on grading for curbs, gutters and sidewalks at the intersection of 68th Avenue NE and NE 181st Street. New traffic signal and illumination (street lighting) poles will be installed soon.
